

TNT MANUFACTURING CO., LTD.

20V BRUSHLESS POWER TOOLS

Motor and controller are designed, engineered and made by Jenn Feng in Taiwan

Brushless Motor

brushless motors provide tailor made controllers dedicated for specific applications

Extreme high, over **90%** efficiency

Compact and light weight design

More application speed, torque and durability
Low noise and new cooling system

Life time **10X**

Run time, over **35%**

Easy-alternative for different models

Dynamic power control
Light loading

Inrush power curve control.

Winding location is more accurate

Self-designed automatic controller and motor aging test equipment and program, provide detail specification report
